

Cara Penggunaan Borang Laporan Item Analisis

1. Setelah memproses semua kertas jawapan OMR dalam satu-satu kelas, terus masukkan Keratan 1 Borang Laporan Item Analisis ke dalam mesin OMR mengikut arah anak panah untuk mencetak jumlah borang OMR yang telah diproses berserta dengan taburan markah.
2. Selepas itu, koyak dan buang Keratan 1 dan masukkan Keratan 2 mengikut arah anak panah untuk mencetak purata kelas berserta dengan item analisis untuk soalan 1 - soalan 25.
3. Kemudian koyak Keratan 2 dan masukkan Keratan 3 mengikut arah anak panah untuk mencetak purata kelas (%) dan item analisis soalan 26 - soalan 50.
4. Sekiranya ujian melebihi 50 soalan, masukkan Keratan 4 dan Keratan 5 untuk maksimum 100 soalan.

The diagram illustrates the layout of the Item Analysis Form, divided into five sections (Keratan 1 to 5) with arrows indicating the insertion direction. Keratan 1 is at the bottom, Keratan 2 above it, Keratan 3 above that, Keratan 4 above that, and Keratan 5 at the top. Keratan 3 contains a table for item analysis (Soalan 1-100) with columns for 'Purata Kelas' (1-25) and 'Purata Kelas (%)' (26-50). Keratan 4 and 5 contain a table for item analysis (Soalan 1-100) with columns for 'Purata Kelas' (26-50) and 'Purata Kelas (%)' (51-100). Keratan 5 also includes fields for 'MATA PELAJARAN' and 'TARIKH'.

Item Analysis Form Processing Guide

1. To print Item Analysis Form after marking a batch/ class of OMR forms, straightaway insert “Keratan 1” into the OMR machine to print the total form scans and the mark frequency distribution.
Please follow the arrow direction when inserting the item analysis form.
2. Next, tear away “Keratan 1” and insert “Keratan 2” for the machine to print the class average and item analysis for question 1 to question 25.
3. Tear away “Keratan 2” and insert “Keratan 3” so that the machine can print out the class average (%) and item analysis for question 26 to question 50.
4. If the test exceeds 50 questions, insert “Keratan 4” and “Keratan 5” as well for a maximum of 100 questions.
