

ExScore

for Windows

Features: Exam Scoring, Analysis, Grading, Statistic Reporting...

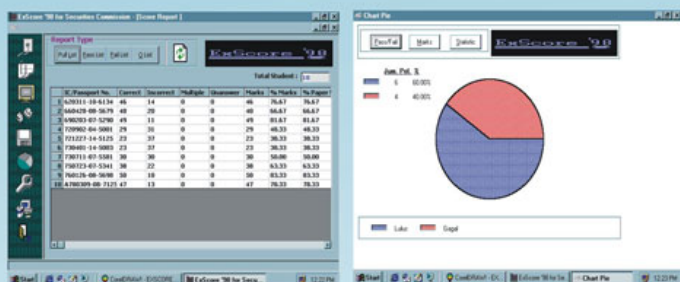

Overview

ExScore for Windows offers automatic scoring, grading, statistic and extensive reporting and analysis options. When used in conjunction with each other, these features can assist instructor in aligning assessment and curriculum.

Automated Scoring - Exam Result Scoring

ExScore is designed to interface with Scantron's most popular Optical Mark Readers (OMR), including the newest model ScanMark ES 2010, 2060, 2800, ScanMark 4000, 5500 & 6500. Combined with a multitude of scannable answer sheets, ExScore provides fast accurate automated scoring of exams.

A number of options enable instructors to select the information they wish to track, as well as choose how to view (overall, pass, fail & question, pie & bar chart) the data once it's collected.

Extensive Reporting

ExScore offers a broad selection of reporting options that will turn your raw data into useable, meaningful information. By analyzing each test or examination, these reports allow instructors to determine the assessment's relevance to the instruction and communicate results back to the students.

All of the following reports can be easily created and printed:

- Overall Report
- Mark Analysis Report
- Grade Frequency Report
- Statistic Analysis Report
- Mark Distribution Report
- Item Analysis Report
- Student Respond to Question Report
- Difficulty Index
- Discrimination Index
- Varian & Error of Measurement
- Graph & Chart
- Slip for Student
- Listing Report, Overall
- School / Dept. Report

Item Analysis Report

IC	Planned No.	Current	Unattempted	Multiple	Unattempted	Wrong	No Marks	No Points
1	1000000	1000000	0	0	0	0	0	0
2	1000000	1000000	0	0	0	0	0	0
3	1000000	1000000	0	0	0	0	0	0
4	1000000	1000000	0	0	0	0	0	0
5	1000000	1000000	0	0	0	0	0	0
6	1000000	1000000	0	0	0	0	0	0
7	1000000	1000000	0	0	0	0	0	0
8	1000000	1000000	0	0	0	0	0	0
9	1000000	1000000	0	0	0	0	0	0
10	1000000	1000000	0	0	0	0	0	0

Frequency Report

Grade	Mark	Frequency	Percentage
A	>= 80	25	100.00
B	75-79	0	0.00
C	65-74	0	0.00
F	< 39	0	0.00

Statistical Analysis

ExScore provides a numbers of easy-to-read statistical analysis report for monitoring student performance.

Statistical analysis can be viewed and printed in several different modes such as :

- Mean
- Median
- Mode
- Highest Score
- Lowest Score
- Standard Deviation

ExScore outstanding flexibility also allows users to :

- Security login
- Control secondary users' access to program and data files
- Add, update & delete user list
- Automatically recalculate grades and scores when changing grading criteria
- Preview result in pie or bar chart
- Set grading criteria temporary and permanently
- Sort data of report before printing
- Mail merge with MsOffice (word, excel...)
- Import ScanMark TEXT master and answer file
- Compute raw score in two decimal places
- Update Result to website
- Produce Result for Email purpose.
